

Visual Communication Solutions™

File Guidelines for Digital Printing

General Specifications

- We work on the PC platform. We can convert your Mac files for a fee.
- All file formats should be sent right reading in original native formats.
- All type should be converted to curves, paths, or outlines depending on the terminology of the application used.
- Include separate image files that are part of a composite layout.

Supported Software Applications

- Corel Draw (v. 12 or below)
- Adobe Photoshop (v. 7 or below)
- Tif, jpg & psd files should contain 150 ppi actual resolution at final output size.
- Vector eps files are fully scalable and are resolution independent.
- Adobe Illustrator (v. 10 or below)
- Adobe Acrobat (v. 5 or below)

Sending Files Electronically

By far, the easiest way to send us your files is through our online file transfer system. Log onto our website at www.visucomsigns.com and click on the "send a file" button. This system allows for large file transfers, avoids e-mail size limits and firewall issues, and ensures that your file reaches us with the least amount of effort.

Sending Files by Mail

Should you need to send us files or hard copy prints of your file, send them to:

VisuCom Signs & Graphics, Inc.
Attn: Digital Printing
11141 W. Laurel Hill Drive
Orland Park, IL 60467

Questions?

Should you have any questions, contact a customer service representative at (708) 460-3001 or Toll-Free at (888) 460-SIGN. You can also click on the "Contact Us" link on our website to submit your question at
